All codes and place names on these pages are used in the 35SQN "Detail of Operations" (Form A.51). Some of these forms in the NAA are badly typed or faded so some of the codes may have been incorrectly interpreted by the compiler and thus there may be duplications.

Compiled by Ron Cuskelly in April 2021 with contributions from Jake Jacobsen and Bob Livingstone. Compiled for the Queensland Air Museum to list airfields visited specifically by QAM's Caribou A4-173.

A code followed by a question mark indicates an "educated guess".

A place name followed by a question mark indicates that transcription was difficult because of illegibility.

Issue	Date	Remarks
1	04APR21	Original issue. This is a work in progress. Additions and corrections will be most welcome.
